of a better journey.

education

logiflex

Furnish personalized learning spaces with creativity and quality.

Educational institutions want spaces that are conducive to the academic environment and flexible within their planning to help inspire and engage the student body and faculty alike.

Make your school stand out as a symbol of success!

Our products offer students a range of public and private study workspaces with unique product connections, which can serve multiple uses for quiet individual work or collaborative team projects.

Library & Study Spaces

Study Carrels

Focus spaces are essential for academic achievement. Your students will appreciate these smart spaces to find peace and quiet while staying connected.

The Xtension collection is perfect for focus spaces and offers efficient electricity management. Add Infiniti and Leo modular seating to the space to create a perfectly welcoming environment.

XTENSION-LEO-C001

Help your students stay connected and be more productive by providing electrical and USB charging stations at each study area. Students can make the most of study sessions when they don't have to interrupt their work by moving to plug in their devices.

The Xtension collection's dividing panels use cable channels for electricity management and can be made more attractive by concealing cables with a laminate cover.

Reception

Create an inviting and practical circulation desk tailored for open spaces like libraries or main entrances.

Take advantage of the versatility of our Spheric collection. With options for straight returns, curved counters and low counters that are accessible for all students, you can create your ideal reception desk.

For safe and practical book returns, enhance your reception desk with a dedicated book drop!

Showcase your school colors and foster a sense of belonging among your students.

Learning

Classroom

The best classroom is a space that can be adjusted by the teachers or professors, that allow them to provide a more personal learning environment based on the course work.

Tables with casters make it possible to rearrange your classrooms based on the amount of interaction and engagement that you want to see. For example, you can move your tables into a U-shape for large group work sessions or move them into rows for more formal presentations. One classroom with many possibilities!
