CLASSROOM IDEAS

SHARED SPACES | MEDIA CENTERS | COMPUTER LAB

Package C

Movement is a critical factor for the developing teen brain, and has been proven to positively influence the way the adolescent brain is structured. Movement enhances cognition, and impacts brain function throughout adolescent years

NEURONASIUM

6-12TH GRADE NUERONASIUM LAB

Neuronasium Lab

Crossroads High School - Houston, TX

All Action Based Learning Labs are based on the brain research that shows us how movement improves learning. The lab is designed for 2 key purposes (1) to maximize cognitive capabilities (2) to provide adolescents an advantage to learning.

CLASSROOM IDEAS

SHARED SPACES | MEDIA CENTERS | COMPUTER LAB

Package D

Each school implements Active Learning in a way that works for their students. Action Based Learning is practiced in PreK through University classrooms, labs, libraries, hallways, PE, and all subject areas. ABL Online Academy also provides training for educators with or without equipment to learn new movement strategies, brain boosters, and activities for immediate application.

CLASSROOM IDEAS

We improve the health, wellness, and education of children around the world, through **purposeful movement!**

Package E

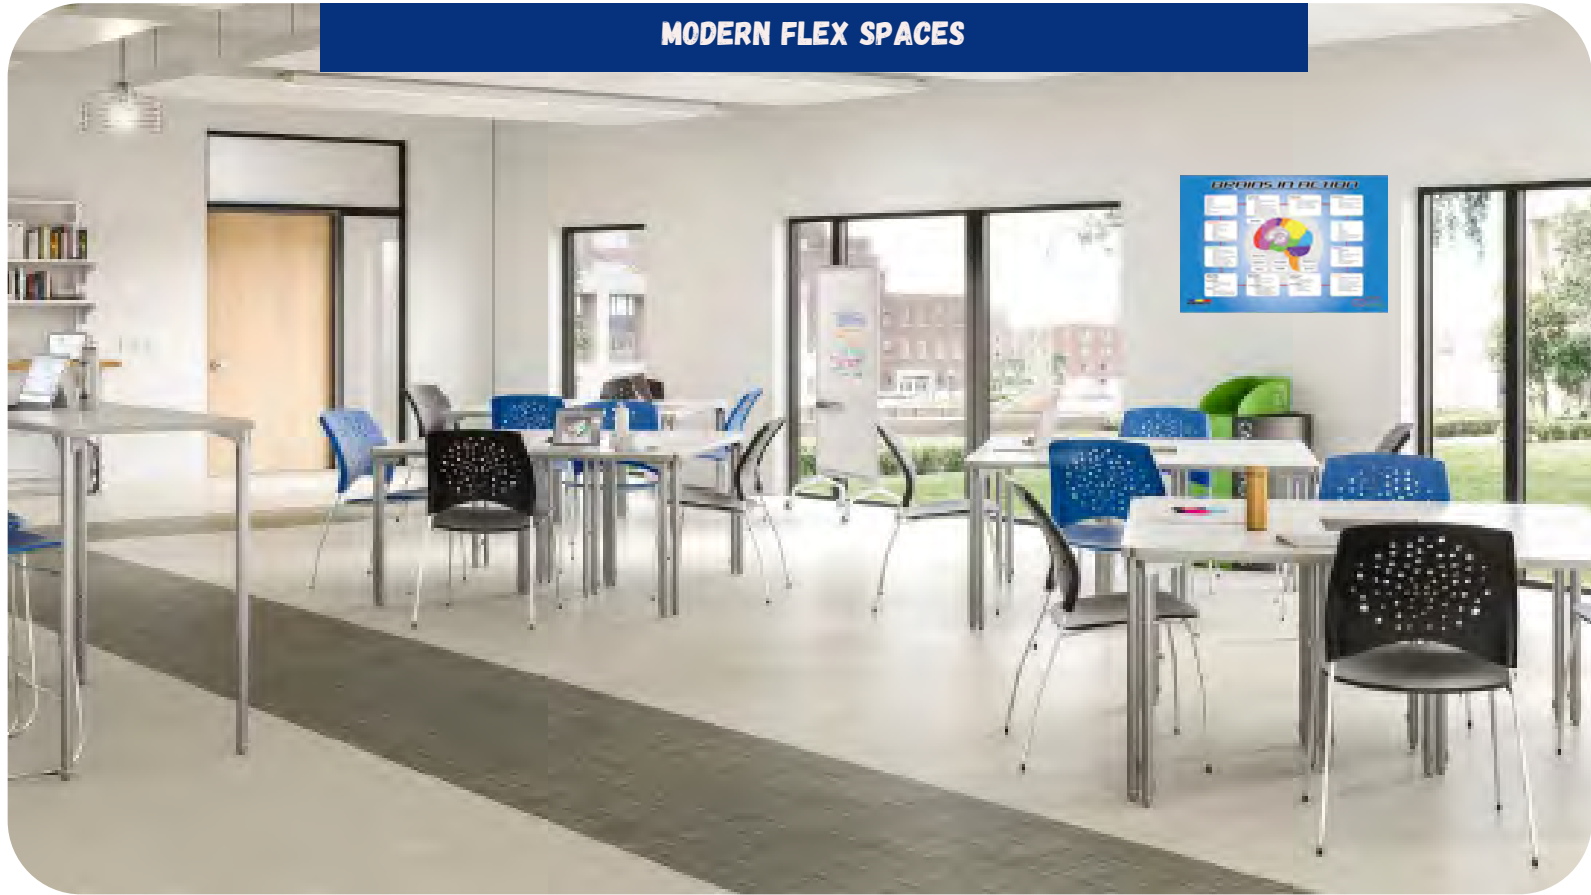

Richland One Schools | Columbia, SC

Dr. Boatwright discusses their district wide initiative, "Since the implementation of Action Based Learning, our instructional leaders shared the most drastic improvement among students has been:

- Increased participation
- Better attention span, more alert
- Increased motivation and student engagement

CLASSROOM IDEAS

MODERN FLEX SPACES

Package F

A student-centered learning environment encourages students to become independent learners and ultimately to be in charge of their own education. Also, the integration of active seating options such as standing desks, has been shown to increase engagement by up to 17%!

CLASSROOM IDEAS

COLLABORATIVE LEARNING | FLEX SPACE

Package G

Ruthie Raynor, Principal -Oklahoma City, OK

There are 75 schools in Oklahoma that have implemented ABL. Stanley Hupfeld principal, Ruthie Raynor discussed year 1 implementation; "We started seeing our discipline data drop dramatically" For the month of December, for example, the year before last, there were 60 kids sent to the office for bad behavior. Last year, that number dropped to six! "Getting students to move benefits not only their physical self but also their abilities in school. So, we are very excited to see our test scores come out this year," Ruthie Rayner, Principal

CLASSROOM IDEAS
