Tables for Educational Spaces Classrooms | K-12 | Higher Education

Special-T's tables for kindergarten and elementary school classrooms can accommodate young children's needs, lower to the ground, with rounded edges and easy-to-clean surfaces. Adapt the classroom to various teaching styles, such as circular tables for collaborative work or individual activities.

For middle school to higher education needs, our standard height tables allow for individual or cluster seating, facilitating group work. Durable, sturdy, and long-lasting, Special-T tables will withstand the high traffic and use of busy classrooms.

Since tables are an indispensable component of any classroom setting, select from our wide offering of classroom tables that deliver functionality, flexibility, and customization options, from base and top colors to casters and glides.

LINK Flip & Nest

The Link Flip & Nest system is perfect for educational spaces; its design facilitates learning and promotes collaboration with its multiple configurations, table connectors, and several top shapes.

In addition, the flip and nest feature makes it easy to store tables, creating more room for activities and facilitating seamless transitions between learning activities. LINK is functional, flexible, and a space saver, accommodating different teaching styles and group sizes.

LINK promotes seamless transitions between learning activities, from individual to group seating, to nesting tables when not in use

TRANSFORM-2 | SR4 CONFIGURATION

Unlimited | Configurations

Reconfiguring tables with different shapes can be an effective way to transform a classroom or learning space. Teachers can create a more dynamic and interactive environment that supports different learning styles and activities by experimenting with various table shapes, such as rectangular, circular, or semicircular.

For instance, circular tables promote collaborative learning and foster communication, while rectangular tables can be more suitable for lectures and presentations. Additionally, rearranging tables can maximize space utilization and create a more spacious and organized classroom, improving students' focus and engagement.

Overall, mixing tables with different shapes can be a simple yet impactful way to enhance the learning experience for students.

Reconfigure with Ease

Most Special-T tables are available in various top shapes and can be arranged for group seating. Starting with rectangular tables can create group seating, and introducing dynamic shapes like presentation, half circle, or crescent will increase the set-up possibilities.

KINGSTON FLIP & NEST | R5 CONFIGURATION

TRANSFORM-2 | STUDIO TEAK TOPS | METALLIC SILVER BASES

Transform-2

Tables for Educational Spaces

Group Seating | Gathering | Café

Tables for gathering places like cafeterias and libraries in learning environments serve as central meeting points for students, faculty, and staff. Special-T's tables have options that accommodate large groups of people and facilitate socialization and collaboration, including flexible seating arrangements for small or large groups.

Tables in shapes promote comfort and are spacious, including optional built-in power outlets or USB ports can accommodate the use of laptops and other electronic devices. Our tables for gathering places in learning environments create a welcoming and inclusive atmosphere that promotes community and collaboration.

Plural

Plural is a timeless and versatile table that embodies simplicity and elegance. Plural's design features a clean aesthetic, a rectangular tabletop, and a flush-to-the-legs construction. It focuses on form and function, with clean lines.

A minimalist design allows Plural to seamlessly integrate into various interior styles, from modern and contemporary to traditional and eclectic; its style exudes sophistication when used as a table, desk, or console. With its versatility and timeless appeal, Plural can effortlessly elevate the visual appeal of any learning environment.

Tables for Educational Spaces Administrative Office | Teachers Desks

Tables for administrative offices in educational environments are crucial in supporting the institution's day-to-day operations. These tables are designed with functionality and organization in mind to cater to the needs of administrators and teachers.

Special-T offers tables that may include additional features like cable management systems or integrated power outlets to facilitate the use of technology such as computers or printers. Ergonomics is another critical consideration, with adjustable heights or ergonomic design elements to promote comfort during long work hours. Finally, tables for administrative offices in educational environments should enhance productivity, organization, and efficiency, providing a functional workspace for administrators and teachers to carry out their vital roles effectively.

Patriot Electric

Patriot allows users to find a healthy balance of sitting and standing throughout the long workday. With a robust dual motor, extremely low noise level, and an elegant controller touchscreen with customizable settings for desired user heights, this product lets the user transform seamlessly from sitting to standing within seconds with the push of a button.
