Create An **Ideal Learning Environment**

With Flexible, Collaborative Classroom Furniture.

Promise & Philosophy

Discover Academia Furniture's unique style for the 21st century classroom - fun, vibrant, colorful, comfortable & versatile.

Our Promise: To exceed your expectations in innovative classroom furniture by personally and helpfully servicing your every need promptly in a true relationship-based association.

Our philosophy: To provide what we promise, when we promise, at a competitive price.

We Design Innovative Products

Making you look good makes us proud. Design, safety, utility, comfort, stability and durability are just the start. Colors, shapes, sizes, finishes, gliding or immobile - the choices abound.

From prestigious public schools to new charter schools, students, teachers and administration are delighted with Academia's quality and versatility. Let's see how good we can make you look.

Environmentally Conscious

Earning 100% compliance with the most stringent standards by recognized independent testing agencies, Academia goes further by reducing our environmental footprint and constantly testing to ensure that all products are classroom-safe and kid-friendly (MAS Certified Green and LEED compliant).

15-Year Warranty

Academia Furniture Industries offers the original user a limited fifteen-year warranty against all manufacturing defects in material and workmanship from date of purchase.

Hercules Series – Half Round Table
STAX Bookcase – Single Sided Bookcase

Zed Series – School Chair

Created to answer every education seating need, based on extensive research.

Extreme comfort, striking contours and sleek, extra-wide back and seat - fits all children and adults.

Astounding hybrid engineering - injection and blow mold - minimizes internal stress for longest wear.

Gas-assisted injection produces lightweight, blemish-free, cosmetically perfect surface.

Educational Series – Lab Stool

The seats are screwed to large underseat plates which are welded to the frame for durability.

Ideal for science labs, kitchens and art rooms, these stools are strong, stable and easy-to-clean.

Our current design features a wider footprint for added stability.

Students are sure to find a comfortable position since these stools are available with fixed or adjustable height legs.

Glides: One Height Adjustable, all four are self-leveling with Nickel Plated Casing Nylon Inserts

HIGH PRESSURE LAMINATE EDGE FINISH

Screws on Adjustable Leg

Unitized Frame

Pencil Groove

Riveted Bookbox

Optional Items: Glide Caps (Felt, Rubber and Steel).

Standard Series – Open View/Writing/Wheelchair School Desk

With its adjustable height and choice of desktops, these desks are sure to enable every student to work comfortably.

This tried-and-true design now features two self-locking screws on each adjustable leg.

The open-view storage area ensures that only necessary supplies are inside.

Unitized frame design, held together by steel tubing and braces; not by the bookbox.

Double Desks

Adjustable-height legs for student comfort, bookboxes can face either direction for any classroom layout.

18-gauge bookboxes are roomy enough to hold everything a student needs; strong and sturdy.

Get twice the learning done on the double desk. Students can work together or independently.

The unitized frame is self-supporting, meaning that the table is held together by heavy-gauge steel, not by the top.

Kinect Series – Teacher Desk

Connect fluidly with students as Kinect's easy mobility lets you move desk and podium together or separately, with just a touch.

Podium magnetically affixes left, right or stands free. Wide choice of colors in tabletop and band edging.

The most cost-effective way to keep focus where you want it, creating a dynamic class synergy.

Podium features acrylic stopper and key-locked cabinet with 2 shelves and file drawer. All have secure locking casters.

TSKT-2440 - Kinect Mobile Teacher Desk

Kinect Series – Teacher Desk

TOP

Work Surface: 960 Sq. Inches

Tabletop: 1½" fiberboard with high pressure laminate surface. Desk height is 29½".

Pencil Drawer: 21" × 16" featuring compartments for pens and paper clips. This drawer features a ball-bearing suspension.

FRAME

Modesty Panel: 4¾" Modesty panel; 18-gauge perforated panel adds design and comfort.

Legs: Tapered 14-gauge steel legs end with casters and a connecting bar for frame strength.

Caster: 3" swivel locking casters.

PODIUM

Frame: Powder coated steel box. The pedestal is 19½" W × 24" D × 43½" H and is outfitted with four 3" swivel locking casters.

Angled Podium Surface: Attached to a steel heavy-duty post with 2 bolts. Angle of the podium top is 12 degrees.

Locking Drawers: Steel locking door houses two shelves; 1 is height adjustable. Locking file drawer is full extension with ball-bearing suspension. It measures 12½" W × 19" D (13" of easy access space) and 9" H.

Illustration V2 Series – Seminar and Computer Table

The table can be used in any setting, thanks to the legs, which can be adjusted to heights from 26"-31".

The soft curves of the upper leg supports and dual legs on either side make this table the design of the future.

The 1150+ square inch tabletop is designed to provide plenty of room for displays, keyboards, mouse and accessories.

The unitized frame is self-supporting, meaning that the table is held together by heavy-gauge steel, not by the top.

Woodstone & Hard Plastic

Woodstone Desktops offer a whole new level of durability, strength, convenience and value.

Woodstone is a mixture of wood fibers and melamine resin, with a laminate finish –baked at 308°F under high pressure.

Lighter: They are 10% lighter than a Hard Plastic Desktop

Affordable: Woodstone Desktops cost about 18% less than conventional hard plastic.

Reliable: Woodstone exceeds ANSI/BIFMA requirement on 5 rigorous tests!

Hard Plastic desktops are solid plastic manufactured with ground hardwood floor, color pigment and melamine plastic resins blended and compressed under heat and pressure to form a homogeneous top.

Classic & Timeless: An all time classic for schools everywhere.

Resilient: Solid Plastic desktops are resilient, heavy-duty and virtually maintenance free.

High-Pressure Laminate Edge Finishes

T-MOLD STANDARD

Hydraulically inserted PVC T-Mold edge banding 1/8" thick, bull-nose profile and smooth matte finish.

T-Mold*
(Shown in Aqua)

X-STRONG OPTIONAL

Sprayed on polyurea, a tough and waterproof textured Epoxy paint, bonded directly onto the table edge, finished with a high lacquer coating.

X-Strong*
(Shown in Black)

PVC 3MM OPTIONAL

3mm thick PVC material applied with heat activated durable adhesive, in a smooth flat matte finish.
